

Partnership for Research & Education in Materials

International Symposium on Advanced Materials: Building Functional Systems via Self-assembly Palmas del Mar Puerto Rico April 27th 2007

PROGRAM

9:00 – 9:45

Registration & Refreshments

9:45 – 10:00

Introductory Remarks

Idalia Ramos, UPR Humacao

Michael L. Klein, Penn

Hilda Colón Plumey, Chancellor UPR-Humacao

Gilda G. Gely, Academic Dean UPR-Humacao

10:00 - 10:45

Jos Put, DSM Research, Geleen

"Advanced Materials: An Industrial Perspective"

10:45 - 11:30

Simona Percec, DuPont Central Res & Dev.

"Self-assembling Conjugate Oligomers for Nanoelectronic Applications"

11:30 - 12:15

Nicholas Pinto, UPR Humacao

"Conducting Polymer Nanofibers "

12:15 - 1:45

Lunch and Posters

1:45 - 2:30

E. W. (Bert) Meijer, Eindhoven University of Technology

"The Energy Landscape in Chemical Self-assembly"

2:30 - 3:15

Roeland J.M. Nolte, University of Nijmegen

"Bio-hybrid Architectures"

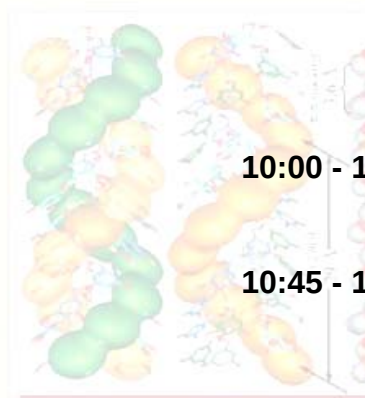

3:15 - 4:00

Virgil Percec, University of Pennsylvania

"Bio-inspired Supramolecular Polymers"

4:00 - 4:30

Reception for speakers and participants

NSF-DMR-0355730
